

FLEX 4 FACT

Industrial flexibility platform
for sustainable factories

[@Flex4Fact](#)

[FLEX4FACT Project](#)

www.flex4fact.eu

FLEX4FACT Coordinator: SINTEF Manufacturing · FLEX4FACT Tech-Coordinator: SINTEF Energy

Development of an **end-to-end ecosystem to enable flexible manufacturing in industries** and accelerate the energy transition

42 months
from June 2022 to November 2025

23 partners
from Norway, Spain, Germany, Italy and Ireland

€ 18 million
co-funding by the European Union

5 pilots to demonstrate the platform solutions

THE 5 FLEX4FACT PILOTS

Manufactured products Demonstration site

theben
smart energy

- Electronic switches
- Different production lines including one for the manufacturing of digital timers

STANDARD PROFIL

- Automotive sealing systems
- Extrusion process with focus on several production lines

CELSA GROUP

- Steel products
- Melt shop composed of rolling mills and arc furnaces

seac
sea is calling

- Dive and snorkelling equipment
- Fins manufacturing machines

INAVENTA SOLAR

- Solar collectors
- Extrusion lines, welding lines and borehole systems production lines

Funded by the European Union
